DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-22 are rejected under 35 U.S.C. 102(a) as being anticipated by Shimane et al. (US 2003/0029654). The reference discloses a hybrid vehicle system having, *inter alia*, a low voltage, a high voltage and a dc converter wherein the high voltage is transferred to a low voltage thru a dc converter via a smoother capacitor during the initial prestart mode.

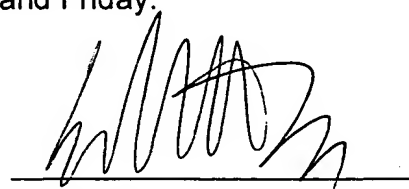

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground of rejection.
